

Martin J. Whitman School of Management Directions for First Term Registration 2024 Submit online no later than June 24, 2024

Accessing the Qualtrics Survey

Your fall 2024 registration form will be available until June 24, 2024. Please check your @syr.edu email address for your unique link to the survey (sent on June 3, 2024).

Singly-enrolled and dually-enrolled Whitman students are required to complete this survey as part of their first semester enrollment. The survey contains university-based questions and questions specific to your program. This information will help us create the first part of your schedule before you finish registration during the week of August 7th. ***(A&S, Maxwell, Falk, and Newhouse dual students will have a full schedule created for them with the opportunity to discuss changes with their Whitman advisor).***

Questions 1-12: University Questions

These questions will ask for general information from you, if you have any expected AP, IB, or transfer credits, and whether you are participating in any campus organizations or athletics.

General Requirements

At Syracuse University, all students are required to take the following [Undergraduate University Requirements](#):

FYS 101: First Year Seminar

IDEA Course Requirement (this does not have to be completed in your first semester)

English/Writing Requirement

All students at Syracuse University are required to take Writing courses or an ENL (English for Non-Native Speakers) equivalent unless they have accepted transfer, Advanced Placement (AP) or International Baccalaureate (IB) credit.

If your primary language is not English, you will be required to take an English placement exam. [Placement Exam Information can be located here.](#)

If you are submitting Transfer, Advance Placement (AP) or International Baccalaureate (IB) credits to the University, your credit will be reviewed and then the appropriate course will be determined.

Learning Community

Explore the 25+ LLC options and if one interests you, rank your LLC choices in the online Housing application found in MySlice. For more information about LLCs, [visit our website](#).

If you have applied to participate in a Learning Community, it may have one or more required courses. Additional information about required courses for learning communities can be found online at the website linked above.

AP, IB, and transfer credit

If you have taken an **AP** or **IB** course, a **SU Project Advance (SUPA)** course/**other Syracuse course**, or are looking to **transfer credit from another college or university**, you need to let us know! We need this information, so you do not accidentally repeat courses for which you have already earned credit. Under the appropriate category, indicate any courses for which you anticipate to receive/already have credit.

Advanced Placement (AP) Credit

List all exams you have taken or will take. Arrange to have your official scores sent to Syracuse University. It is **your** responsibility to check with the Whitman Undergraduate Office to make sure you have received the proper credit based on your scores.

Please note the following conditions:

- We cannot record your credit until we have an *official copy* of your scores. If you have had the scores sent to Syracuse University's Admissions Office, we will receive them.
- If you haven't received your final AP exam scores yet, that's okay! You can still check the box, and we will review your scores when we receive them.
- You are granted AP credit with the understanding that the work you have done is equivalent to the courses listed. You can receive credit only once for this work, so if you take the equivalent course at Syracuse, your AP credit will no longer count.
- You can find a list of AP course equivalents in section 8 of the [course catalog](#).

International Baccalaureate (IB) Credit

List all IB courses and anticipated scores. Arrange to have your IB Diploma sent to Syracuse University. It is **your** responsibility to check with the Whitman Undergraduate Office to make sure you have received the proper credit based on your scores. We cannot record your credit until we have an *official copy* of your scores.

College-Level Exam Program (CLEP) Credit

List all CLEP courses and anticipated scores. Arrange to have your CLEP transcript sent to Syracuse University. It is **your** responsibility to check with the Whitman Undergraduate Office to make sure you have received the proper credit based on your scores. We cannot record your credit until we have an *official copy* of your scores.

Transfer Credit

If you have taken a course at another college or university, you may be able to transfer the credit to Syracuse University if the course meets the following criteria:

- You took the course at an accredited institution.
- You earned a grade of "C" or higher (pass/fail grades are not acceptable).
- The course is equivalent to a course offered at Syracuse University and applies toward your degree requirements. You may need to provide a course description or a syllabus.

You must have an official transcript sent from the college or university to the Whitman School of Management directly. (High school transcripts are not sufficient).

You may have electronic transcripts sent to whitmanadvising@syr.edu **directly**. **Previously downloaded or forwarded copies will not be accepted.** Transcripts sent to the Registrar's Office are not forwarded to our office, and you may need to request a new copy. *E-transcripts are the preferred method of delivery.*

Paper transcripts can be mailed to:
Whitman Undergraduate Programs
Whitman School of Management
721 University Ave, Suite 215
Syracuse, NY 13244-2450

SU Project Advance (SUPA) or other courses completed at Syracuse University

Please list any Project Advance or other Syracuse courses that you have taken. SUPA credit is Syracuse University credit. These courses already appear on your Syracuse transcript with a GPA. You will receive credit for courses you have passed and should not register for the same course again. We do not need a copy of your transcript for these courses as we already have access to these records.

Marching Band

If you are interested in participating in "The Pride of the Orange," Syracuse University's Marching Band, please contact the band office at 315-443-2194 or e-mail Fran Moore at fmmoore@syr.edu. All members are required to attend band camp the week before classes begin. Rehearsals averaging six hours per week (three evenings, two hours each) occur during the fall semester with additional rehearsals during game week. You are required to register for Marching Band (ENI 510) for one credit. If you are at a maximum credit load, your college will contact the band office for consent.

Reserve Officer Training Corps (ROTC)

The Army ROTC meets for two academic hours, two leadership lab hours, and three physical fitness hours each week, and the Air Force meets for three academic and three physical fitness hours each week. Army ROTC program consists of a combination of credit and non-credit courses. Air Force ROTC courses can be taken for credit or non-credit. Army ROTC offers merit-based scholarships that pay for full tuition and fees at Syracuse, as well as monthly stipends. Air Force ROTC also offers merit-based scholarships that pay for full or partial tuition and fees and gives each recipient a monthly stipend. Additional scholarships and awards may be available.

General Information: 1-800-295-7456

Air Force

1-800-295-7456

315-443-2461

E-mail: afd535@syr.edu

<http://afrotc.syr.edu>

Army

315-443-2462

E-mail: armyrotc@syr.edu

<http://armyrotc.syr.edu>

Athletes

For students participating in a Division 1 sport (even as a walk-on) during your first year, please be sure to answer yes to the Division 1 sports question. Being a part of a Syracuse University athletics team may impact your academic schedule. We will work with Syracuse University Athletics to the best of our ability to accommodate practice and game schedules.

Honors Program Students

Please click this link below to review first term registration instructions for students admitted to the Renee Crown Honors Program: [Renee Crown Honors Program First Term Registration](#). Please wait to make your final selection of courses until you read this material.

Select the Honors course you find most appealing! If you have any questions as you go through this process, please contact Honors at honors@syr.edu.

Questions 13-21 are specific to your Whitman program and requirements.
Placement Exams

Whitman students are not required to complete placement exams.

There is no foreign language requirement for singly enrolled Whitman or Whitman/Newhouse dual students, but if you want to take a language as an elective during your time at SU, you should take the placement exam. Most foreign language placement exams will be available at myslice.syr.edu. Placement exams for all other languages will be offered in the week prior to Syracuse Welcome. Please refer to the Schedule in the *Syracuse Welcome Book* for times and locations.

If you are a dual with **International Relations**, you must take a language placement exam.

If you are a dual with the **College of Arts & Sciences**, you must take the Math placement exam.

3+3 Track with the College of Law

Whitman and College of Law have created a [3+3 BS/JD program](#) for candidates with top credentials and an interest in pursuing both degrees in an accelerated six-year program. This bachelor's plus law degree program will permit students who meet the requirements for admission to enter the College of Law after three years of undergraduate education. After the successful completion of the first law year (fourth year of the 3+3), the undergraduate degree is conferred. The 3+3 student earns the J.D. degree after successful completion of the law program. If you are considering this track, please check yes in the area at the bottom of the first page of the registration survey so we can accommodate your needs during registration. *Dual students are not eligible to pursue the 3+3 program due to course requirements for their program.*

Courses

To complete the BS degree in the Whitman School of Management, you must earn a minimum of 122 credits (140+ for dual programs). Students typically take 15-17 credits each semester, an average load of 5 courses. Dual students typically complete 18-19 credits each semester. While there is a specific number of credits required to receive your degree, each program is made up of *required courses* (prescribed courses needed for your degree) and *elective courses* (student-selected courses from a particular category that fulfill an area of the degree).

First-year Whitman students have four to six required courses in the fall semester. Your fall schedule may vary slightly based on previously earned credit or course availability, but a combination of the following courses is typical:

FYS 101 First Year Seminar (1 credit) A one-credit, semester long course that engages all first-year and transfer students in guided conversations, experiential activities, and written assignments about transitioning to Syracuse University.

SOM 122 Perspectives of Business Management (3 credits) Understanding the role and responsibility of management in society; fundamental knowledge of the nature and integration of functional disciplines in business; skills essential to effective management; development of base for academic/career mission and achievement.

MAS 261 Introductory Statistics for Management (3 credits) Basic statistical theory and data analysis methods. Describing data graphically and numerically. Probability distributions. Sampling. Statistical tests and intervals. Use of computer statistics programs. Emphasis on choice, limitations, and interpretation of methods for management use

ECN 101 Introductory Microeconomics (3 credits) Introduction to microeconomics. Consumer demand, theory of production, markets and prices, social welfare, and related topics.

WRT 105 Writing Studio I (3 credits) Study and practice of writing processes, including critical reading, collaboration, revision, editing, and the use of technologies. Focuses on the aims, strategies, and conventions of academic prose, especially analysis and argumentation. ****Honors and international students may take a different writing course****

Arts & Sciences elective (3-4 credits)

ACC 151 Introduction to Financial Accounting (4 credits) Financial accounting concepts that aid entrepreneurs, managers, investors, and creditors in planning, operating, and analyzing a business. Emphasis is on interpretation of financial statements. ****This course may be registered for you depending on program requirements****

Dual Enrollment with Newhouse:

Newhouse Duals will be registered for a full schedule and will have the opportunity to discuss possible adjustments with their advisor. Newhouse duals will also be registered for the following:

COM 107 Communications and Society (3 credits) Mass media and their functions. Contemporary problems of the media; legal, social, economic, and psychological implications of their relationships with society. Required of all students in the school.

COM 100 First Year Seminar (0 credits)

****Depending on your major in Newhouse, you may also be registered for COM 117 or VIS 201****

Dual Enrollment with Maxwell (International Relations) or Arts & Sciences

Arts & Sciences and Maxwell Duals will be registered for a full schedule and will have the opportunity to discuss possible adjustments with their advisor. Please see below for possible fall courses depending on your major:

Biology or Biotechnology

BIO 121 General Biology I (4 credits) First course in a survey of biological concepts ranging from the molecular level to global ecology. Units include the nature of science, life chemistry, cell structure and function, photosynthesis and respiration, genetics, and evolution.

CHE 106/107 (or 109/129) General Chemistry Lecture & Lab I (4 credits) Fundamental principles and laws underlying chemical action, states of matter, atomic and molecular structure, chemical bonding, stoichiometry, properties of solutions, chemical equilibria, and introductory thermochemistry.

Chemistry

CHE 106/107 (or 109/129) General Chemistry Lecture & Lab I (4 credits) Fundamental principles and laws underlying chemical action, states of matter, atomic and molecular structure, chemical bonding, stoichiometry, properties of solutions, chemical equilibria, and introductory thermochemistry.

Mathematics or Applied Mathematics

MAT 295 Calculus I OR MAT 296 Calculus II OR MAT 397 Calculus III (4 credits)

International Relations

PSC 124 International Relations (3 credits) Foreign policy, decision making, comparative foreign policy, international transactions, and the international system.

Foreign language course (3 or 4 credits)

Dual Enrollment with Falk

Falk Duals will be registered for a full schedule and will have the opportunity to discuss possible adjustments with their advisor. Please see below for possible fall courses depending on your major:

Public Health

PHP 219 Human Health & Disease (3 credits) Examines major chronic conditions and other preventable illnesses with a primary focus on public health's goals related to disease prevention.

PSY 205 Foundations of Human Behavior (3 credits) Fundamental principles of mental life and human behavior. Significance of psychology in human relationships and self-understanding.

Sport Management

SPM 205 Principles and Contemporary Issues in Sport Management (3 credits) Overview of the sport industry through examination of problems and issues faced by contemporary sport managers. Unique characteristics of sport and resulting social and ethical responsibilities of sport managers are discussed using case study method.

Whitman students will be registered for the following courses:

- FYS 101
- SOM 122
- ECN 101
- MAS 261 or ACC 151

Whitman students will be responsible for registering themselves for:

- WRT 105

AND one of the following:

- PSY 205 Foundations of Human Behavior (3 credits) Fundamental principles of mental life and human behavior. Significance of psychology in human relationships and self-understanding.
- Arts & Sciences elective (*more information to come on electives later this summer!*)
- Science elective
- LPP 255 Introduction to the Legal System (3 credits) The legal system and public policy issues emphasizing the impact of the legal environment on management decision making. Includes ethics and international topics. Development of analytical and communication skills.
- Other course(s) in consultation with your Whitman academic advisor

Please note that registration is often a work in progress! **You should always have backup classes in mind if you don't get into your top choice section or class.** We are here to help if you get stuck at any point during the registration process!

*****Your final schedule should include at least 15 credits*****

Questions?

- You will be able to view your schedule in MySlice on July 30, 2024.
- You will be able to add additional courses to your schedule on August 5, 2024. You will receive an email to your syr.edu email address with further instructions later in the summer.
- If you have advising questions, please contact us at whitmanadvising@syr.edu.
- If you have admissions related questions, please call (315) 443-3611 or email orange@syr.edu.
- If you have financial aid related questions, please call (315) 443-1513 or send a message at <https://financialaid.syr.edu/emailus/>.
